

EcoPrO₃[™] Ozone Antimicrobial Treatment Systems

SPECIFICATIONS	
System Control	PLC with Touchscreen HMI
Aqueous Ozone Output	Up to 10.0 PPM
Aqueous Ozone Flow	Up to 450.0 GPM
Gaseous Ozone Output	Up to 10.0 PPM
Ozone Injection Pump	Included
Process Supply Pump	Included
Pressure Cleaning Pump	Included / Optional
Cooling Method	Air Cooled
Aqueous Ozone Monitor	Included (Dissolved Ozone)
Gaseous Ozone Monitor	Included (Process & Ambient)
Makeup Water Requirement	Up to 450.0 GPM @ 40 PSI
Makeup Water Quality	Potable, Sediment and Carbon Filtered, Temperature ≤75F
Power Requirements	Varies by System
Enclosure Rating	NEMA-3R
Materials	316 Stainless / Sanitary
Dimensions	Varies by System
Weight	Varies by System
